5.1P: In Person Check-in 2 – Answer Sheet

- What was the most challenging aspect of the drawing tasks? Why?

The most challenging I thought was to find the most efficient way of using and doing the tests in got stuck in tests and then later figured it out.

- Review your answer to question 3 from check-in 1. Did you use any of the strategies you identified? How did they go?

yes, I used some books from swinburne library and watched the relevant lecture reference about inheritance and applied to the tasks

- What are some strategies for success you can start or continue using for the remainder of the semester?

Do tasks before time and watch the appropriate lectures plus doing additional tasks to explore and get confidence and understanding of C#.
