2.1P: In Person Check-in 1 – Answer Sheet

1. Briefly describe your prior experience with programming.

   I have previously done Intro to programming in ruby language and know the fundamentals of programming

2. Based on what you have seen so far, what do you think will be most challenging about this unit?

   I think understanding the unit isthe whole concept of the OOP principles (Abstraction) and how they work.
   I get doing mistake it makes me anxious and make the consecutive
   Mistakes

3. What can you do to prepare yourself for that challenge (resources you can use, approach to studying etc.)?

Reading some books about C# and doing a lot and a lot of practice so that I get the hinge of the subject

4. Is there anything you think the teaching staff should know to best help you this semester?

I think my teaching staff should know that I don't know a whole lot about how the .net framework works and that I will try my best to do it and try to full fill what this unit requires me to do. I might need some additional support at times for the unit.
